

GLASS ACCESSORIES

Showmaster chrome glass holders for 6mm, 8mm and 10mm glass. Finished in silver.

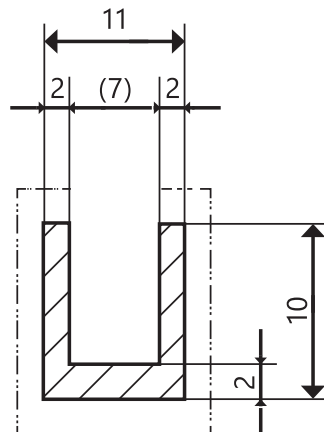

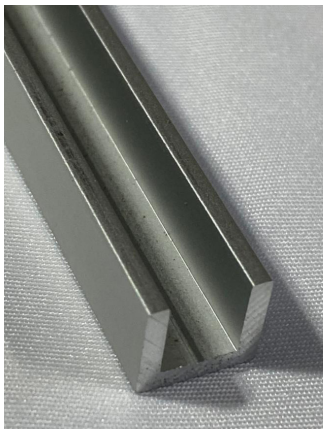

6mm glass

Silver plastic edging strip available in both 6mm and 10mm for extra protection to the edge of any glass area normally accepted as the weakest point on any glass. The silver plastic strips are suitable for both hot and cold display cases and the strips fit tightly on to the glass to prevent any dirt traps. They can be supplied from stock in any length up to 3000mm.

6mm aluminium anodised glass channel available in any length.

Glass safety chains are made from high grade stainless steel chain and coupled to a chrome bracket and fixing point. They can be made to any length required and are readily available. They are used with 6mm glass which fits all of our curved glass options.
